The Kitsap Public Health District is seeking public comment on proposed Environmental Health fee adjustments.

Kitsap Public Health Board Budget Policy directs the Kitsap Public Health District to recover the cost of service for fee-related services. Based on a recent review and evaluation of Environmental Health service fees, the current hourly rate used to calculate each fee is no longer sufficient to recover the cost of service. The base hourly rate has not been adjusted since 2009. An increase in the base hourly rate is needed to recover the full cost of services.

Additional information on how fees are calculated and a copy of the proposed fee adjustments is available at www.kitsappublichealth.org/fees.

Feedback on the proposed fee schedule will be accepted until Wed., Nov. 22 at 4:30 p.m. and can be submitted:
