Restaurants to Receive “100% Club” Food Safety Award

BREMERTON, WA—In recognition of a job well done, the Health District has given its annual 100% Club Award to 182 restaurants that have distinguished themselves by practicing excellent food safety methods. There are over 500 food establishments currently permitted by the Health District that are categorized as a restaurant. The restaurant category contains quick-service restaurants, full-service restaurants and take-out establishments, including supermarket delis.

In order to be eligible for the award, restaurants must have received a score of 100% on their last two consecutive routine inspections. Each eligible restaurant also needed to meet the following criteria:

- No confirmed or suspected foodborne illness history during the past year.
- No Health District closure due to an imminent health hazard during the past year.
- No complaint that was confirmed to be a violation during the past year.
- Uses an approved water source and approved on-site sewage system or sewer.

Award certificates were mailed to qualifying restaurants the week of October 8th. The restaurants receiving the awards are listed in the attachment to this media release.
