

Kitsap Respiratory Illness Report

Weeks 29 – 32 (July 18, 2021 – August 14, 2021)

Summary: Local influenza activity remains low. There were zero positive influenza tests and zero positive RSV tests reported during week 32. There were zero emergency room visits for ILI during week 32. There have been no outbreaks of influenza (defined as 1 or more confirmed cases of flu) in long term care facilities and no flu related deaths reported so far this flu season. Please note influenza testing may be decreased this year due to COVID-19.

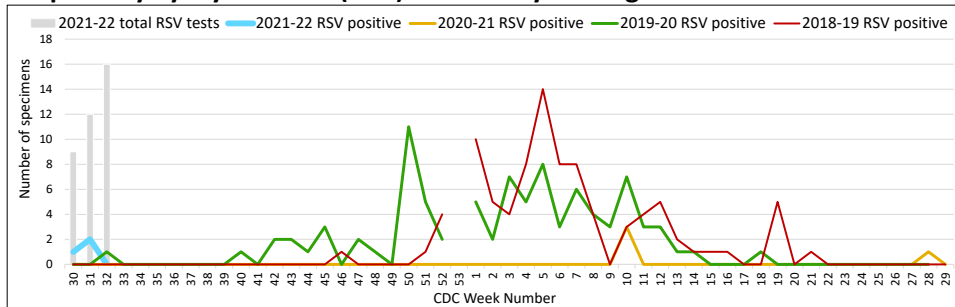

Influenza Laboratory Testing

Current Week (week 32)

Tested	27
# Pos. influenza	0
# flu A	0
# flu B	0
# unknown	0
% Pos. influenza	0%
Reporting	4 of 4
