

KITSAP PUBLIC HEALTH BOARD

*The Kitsap Peninsula is home of sovereign Indian nations, namely the
Suquamish and Port Gamble S'Klallam Tribes*

MEETING AGENDA

July 5, 2022

**** Please note that this is a virtual / online meeting held pursuant to the COVID-19 State of Emergency (Proclamation 20-05 by the Governor) and Engrossed Substitute House Bill 1329, Open Public Meetings – Various Provisions. Electronic connection and viewing information for the meeting is provided at the end of the agenda. ****

- 10:30 a.m. 1. Call to Order
Mayor Greg Wheeler, Chair
- 10:31 a.m. 2. Approval of June 7, 2022, Meeting Minutes
Mayor Greg Wheeler, Chair *Page 5*
- 10:33 a.m. 3. Approval of Consent Items and Contract Updates
Mayor Greg Wheeler, Chair [External Document](#)
- 10:35 a.m. 4. Public Comment – **PLEASE SEE NOTES AT END OF AGENDA**
Mayor Greg Wheeler, Chair
- 10:45 a.m. 5. Health Officer and Administrator Reports
Dr. Gib Morrow, Health Officer & Keith Grellner, Administrator

INFORMATION & DISCUSSION ITEMS

- 10:55 a.m. 6. Update on Nonelected/Non-Tribal Board Member Position Recruitment
Keith Grellner, Administrator
- 11:00 a.m. 7. Food Safety & Living Environment Program
Dayna Katula, Program Manager *Page 13*
- 11:35 a.m. 8. Nurse-Family Partnership Program
Nancy Acosta, Program Manager *Page 30*
- 11:45 a.m. 9. Adjourn

*All times are approximate. Board meeting materials are available online at
www.kitsappublichealth.org/about/board-meetings.php*

Instructions for virtual attendance at Kitsap Public Health Board meetings**

Health Board Meetings Via Zoom

The Kitsap Public Health Board will be held via Zoom webinar, broadcast live on Comcast channel 12, WAVE channel 3, the [BKAT website](#) and Facebook (please note: there is no physical location for this meeting. Board members and staff will all participate remotely). The Health Board and presenters are **panelists**, members of the public are **attendees**.

Webinar **attendees** do not interact with one another; they join in listen-only mode, and the host will unmute one or more attendees as needed.

How to Join the Zoom Meeting

To join the meeting online, please click the link below from your smartphone, tablet, or computer:

<https://us02web.zoom.us/j/86186052497?pwd=TXcrQU1PRWVvVHgyWERXRFluTWloQT09>

Password: 109118

Or join by telephone:

Dial: +1 (253) 215-8782

Webinar ID: 861 8605 2497

*Zoom meeting is limited to the first 500 participants. A recording of the meeting will be made available on our website within 48 hours of the meeting.

Information & Directions for Public Comment

We apologize, but verbal public comment *during* the meeting may only be made through a Zoom connection. The public may make verbal comments during the Public Comment agenda item if they are attending the meeting via Zoom.

As this meeting is a regular business meeting of the Health Board, verbal public comment to the board will have a time limit so that all agenda items will have the opportunity to occur during the meeting. Each public commenter will receive a specific amount of time to speak to the board as determined by the Chair based on the number of public commenters for the meeting.

Written comments may be submitted via regular mail or email to:

Regular Mail:

Kitsap Public Health Board
Attention: Executive Secretary
345 6th Street, Suite 300
Bremerton, WA 98337

Email:

HealthBoard@kitsappublichealth.org

All written comments submitted will be forwarded to board members and posted on the Health Board’s meeting materials webpage at <https://kitsappublichealth.org/about/board-meetings.php>.

Public Participation Guidelines

Below are recommendations for use by members of the public in meetings conducted via Zoom Webinar.

Identification: Upon entering the webinar, please enter your name, number or other chosen identifier, so that the host can call upon you during the public comment period.

Raise Hand (pictured below): You have the ability to virtually raise your hand for the duration of the meeting but you will not be acknowledged until you are called on during the public comment period. NOTE: If you have used your telephone to access the Zoom meeting, **you may press *9** to “raise your hand”. The host will unmute you when it is your turn to speak.

Public Comment Period: Use “Raise Hand” to be called upon by the host. The host will announce your name when it is your turn.

Mute/Unmute: Attendees will be muted and not audible to the Board except during times they are designated to speak. When you are announced, you will be able to unmute yourself. NOTE: If you have used your telephone to access the Zoom meeting, **you may press *6** to mute/unmute yourself.

Time Limit: Each speaker testifying or providing public comment will be limited to a time period specified by the Chair.

Use Headphones/Mic for better sound quality and less background noise, if possible.

Closed Captions/Live Transcripts are available. On the bottom of your zoom window, click the  button to turn on/off captions. You can adjust the way captions appear on your screen in settings. Please be aware, captions are auto-generated by Zoom and may contain errors.

This is a public meeting of the Health Board. It is expected that people speaking to the board will be civil and respectful. Thank you for your cooperation.

**KITSAP PUBLIC HEALTH BOARD
MEETING MINUTES
Regular Meeting
June 7, 2022**

The meeting was called to order by Board Chair Mayor Greg Wheeler at 12:31 p.m.

Chair Wheeler acknowledged that the Kitsap Peninsula is home of sovereign Indian nations, namely the Suquamish and Port Gamble S'Klallam Tribes.

REVIEW AND APPROVE AGENDA

There were no changes to the agenda.

EXECUTIVE SESSION

At 12:32 p.m., Chair Wheeler announced the board would exit for Executive Session for approximately 20 minutes.

At 12:50 p.m., the Chair Wheeler closed the Executive Session. No decisions were made.

BOARD MEETING MINUTES

Commissioner Charlotte Garrido moved, and Mayor Becky Erickson seconded the motion, to approve the minutes for the May 3, 2022 regular meeting. The motion was approved unanimously.

CONSENT AGENDA

The June consent agenda included the following contracts:

- 1511, *Clallam, Jefferson, Kitsap and Mason Counties, Hood Canal Regional Septic Loan Program*
- 2246, *OSPI, Summer Food Inspections*
- 2262, *Jefferson County Public Health, Youth Cannabis & Commercial Tobacco Prevention Program (YCCTPP)*
- 2262, *Kitsap County, Youth Cannabis & Commercial Tobacco Prevention Program (YCCTPP)*

Mayor Rob Putaansuu moved and Commissioner Rob Gelder seconded the motion to approve the consent agenda, including the Contracts Update and Warrant and Electronic Funds Transfer Registers. The motion was approved unanimously.

PUBLIC COMMENT

Chair Wheeler allowed each person two minutes for public comment.

There were no public comments.

HEALTH OFFICER/ADMINISTRATOR'S REPORT

Administrator Update:

Mr. Keith Grellner, Administrator, informed the board that 31 applications have been received so far for the three open positions on the board within three required categories: public health, healthcare facilities and healthcare providers; consumers of public health; and other community stakeholders. The Health District has shared information about the recruitment process with tens of thousands of Kitsap County residents through email blasts, social media posts and news stories. Additionally, the recruitment team has reached out to over 100 local organizations, including healthcare and social services, providers, businesses, industry associations, nonprofit groups, grassroots organizations and civic clubs. An extensive webpage dedicated to this recruitment can be found at https://kitsappublichealth.org/about/board_expansion.php.

At this time, the interview team has 6 hours of available interview time on June 21 and 24, which allows time to interview the top two candidates from each category. Mr. Grellner noted the Personnel Committee may wish to add additional interview times to interview more candidates in July or August. The law does not require the board to interview every candidate. The administrative code stipulates that the board may interview a smaller number of applicants if the total number of applicants is substantial, which it is. The only stipulation in the administrative code is that the smaller group of interviewees shall include diversity of expertise and lived experience.

The application submittal period closes Monday, June 13. Thereafter, the recruitment team will compile applicant packets for the Personnel Committee's review. Mr. Grellner said he will share more information at the July 5 board meeting.

There were no further comments.

Health Officer Update:

Dr. Gib Morrow, Health Officer, provided updates on COVID-19, wildfire smoke and air quality issues, monkeypox, and notifiable conditions.

Dr. Morrow said COVID-19 transmission rates are currently high. Seven-day case rates have plateaued below 200 cases. He said cases are likely 5-6 times higher than what is being reported to public health due to at-home testing. He noted that the number of weekly hospitalizations of Kitsap residents increased from 17 to 30 in the most recent week and noted that some of these are incidentally positive for COVID-19 rather than the cause of their hospitalization. Additionally, there were 10 COVID-19 fatalities in Kitsap County in May. Dr. Morrow said vaccination continues to be the single most important intervention for everyone. The pediatric vaccine for children 6 months and older is expected to become available at the end of June. He also noted that we continue to see significant collateral damage from this disease in terms of

mental health issues, with the most profound impacts seen in children and adolescents. He said mental health assistance is available for those who need it.

Dr. Morrow said the COVID-19 after action survey received about 350 responses, which dwarfs numbers seen in larger and more populous counties. This after-action review is geared to assess our response and prepare for future events. Response analysis along with interviews will be used to compile a final report to suggest changes to improve our response to future emergencies in Kitsap County.

Next, Dr. Morrow discussed wildfire smoke and air quality. The Washington State Department of Health (DOH) and Environmental Protection Agency have aligned their air quality scales to improve clarity and consistency to recommendations to protect our health as air quality becomes impaired. Dr. Morrow said we can expect poor air quality in the warmer months and encouraged families to begin planning clear air spaces within their home environments. Health District communications will include very specific instructions for how this can be done effectively and affordably. He said from June 13-17, the Health District will be providing Smoke Ready information along with local partners, including the Puget Sound Clean Air Agency, throughout the region. The Kitsap County Department of Emergency management is making plans to identify and provide clean air centers in the community as smoke becomes severe in the county.

Next, Dr. Morrow said the Health District's Communicable Disease (CD) team is aware of confirmed monkeypox in our region and is working closely with DOH and the Centers for Disease Control and Prevention (CDC) to be prepared to monitor exposed cases and to obtain and administer vaccines from the Strategic National Stockpile, if necessary. Monkeypox is a serious disease and the virus is similar to the viruses that cause smallpox. Typical symptoms of monkeypox are fever, headache, muscle ache, back ache, swollen lymph nodes, exhaustion, and rash. The rash is unique and identifiable as monkeypox. This particular strain comes from West Africa and has a case fatality rate estimated at between 1 to 10 %. As of May 21, there were 92 confirmed cases in 12 countries. As of June 2, the CDC has reported 19 confirmed cases in nine states in the United States. The Health District sent out provider advisories to help local providers be aware and know what to look for. Dr. Morrow said the Health District is taking this issue seriously but noted the disease does not currently present a major threat to the general public.

Dr. Morrow also noted that the CD and Epidemiology teams are doing a fantastic job managing a highly complex tuberculosis outbreak. These cases are presenting clinical and social challenges due to antibiotic resistance patterns. He added that gonorrhea remains elevated throughout the Olympic region. There were 141 cases in the region between January and April, with majority being in Kitsap County. There has been a 50 percent increase from last year in gonorrhea cases and cases have been increasing since 2017.

Next, Dr. Morrow said foodborne illness is more common this year. Campylobacter, a foodborne illness, has had a 68% increase in Kitsap cases compared to last year.

Lastly, Dr. Morrow said the Health District is increasing communications about avian influenza again this year. It is not a significant human health concern, but has been detected in domestic and wild birds in the U.S. including Washington state.

Mayor Erickson noted there was recently a Jif peanut butter recall for salmonella. She asked if the Health District tracks these food recalls locally and shares information with the community and medical providers about it. Dr. Morrow confirmed that the Health District does track these and post them on their website. He said the Health District posts recalled lot numbers on their website and takes calls from the public regarding recalls. He said the recall was issued through the FDA on May 20 and said there have been 16 cases of salmonella in 12 states.

Dr. Morrow said these recalls happen frequently and said the Health District could send out more health advisories but cautioned about alarm fatigue.

There were no further comments.

RESOLUTION 2022-07, APPROVING UPDATES TO KITSAP PUBLIC HEALTH BOARD BYLAWS

Mr. Grellner approached the health board regarding Resolution 2022-07, Approving Updates to Kitsap Public Health Board Bylaws. The purpose of the revised Bylaws is to incorporate required changes related to Health Board membership composition in response to the state Legislature's passing of Engrossed Second Substitute House Bill 1152 (mostly codified in RCW 70.46.031 for single county health districts), and the Kitsap County Board of Commissioner's approval of revisions to Kitsap County Code Chapter 9.52, Kitsap Public Health District, via adoption of Kitsap County Ordinance No. 614-2022 on May 23, 2022 (also attached).

The draft updates to the Bylaws have been reviewed and commented on by the Health Board's Policy and Personnel committees; legal counsel to the Health District; the Health District; and the full Health Board. Mr. Grellner noted the resolution has an effective date of today, June 7, but said the board may want to consider changing that to September 1.

Commissioner Gelder recommended an August 1 effective date to have the updated bylaws in place by the time the County Board of Commissioners appoints the new board members.

Commissioner Ed Wolfe asked what the reimbursement rate is for non-electeds. Mr. Grellner said the reimbursement rate for non-electeds, who are not being reimbursed by an employer or other organization, is \$85 per meeting. This applies to regular meetings, committee meetings and other approved board activities.

Mayor Putaansuu moved and Commissioner Gelder seconded the motion to approve Resolution 2022-07, Approving Updates to Kitsap Public Health Board Bylaws with an amended effective date of August 1, 2022.

Mayor Erickson asked for more information about the recruitment process. Mr. Grellner said the Health District has done extensive outreach to the public and local community groups, employers and civic groups. He said the board appointed the Personnel Committee, along with Dr. Morrow and Mr. Grellner, to review applications and conduct interviews. The Committee currently has 3 hours of interview times scheduled on June 21 and again on June 24. If the Personnel Committee would like, the Health District will schedule additional interview dates. Mr. Grellner will report back an update on the process at the July 5 meeting.

Mayor Erickson asked how and when individuals will be sworn into the board and when they will be educated about their responsibilities, etc. Mr. Grellner said the Personnel Committee will make a recommendation to the full board on new members. The Health Board will approve or not approve these recommendations and then will make a referral to the Board of County Commissioners, as the county legislative authority for final approval and appointment. Additionally, Mr. Grellner said staff are updating the board orientation materials that Dr. Morrow and Mr. Grellner will use to orient new board members. The State Board of Health and DOH are also working on an orientation process, but details haven't been shared yet about that. New members will be oriented about ethics and rules like the Open Public Meetings Act (OPMA), the Public Records Act, etc.

Commissioner Wolfe asked if all board members will get information about applications. Mr. Grellner said he could provide more information to board members who would be interested. Councilmember Kirsten Hytopoulos asked about OPMA in respect to the full board weighing in on candidates. Commissioner Wolfe clarified that he intended for board members just receive the candidate information but not to make any decisions.

Mr. Grellner said any board members who would like to review applications should reach out to him in the next few days. He said will follow up with legal counsel.

The motion was approved unanimously.

There was no further comment.

EQUITY PROGRAM UPDATE

Ms. Jessica Guidry, Equity Program Manager, approached the board with an Equity Program update.

Ms. Guidry said the Kitsap Public Health District's Equity Program was launched after the Kitsap Public Health Board approved Resolution 2021-01, Declaring Racism a Public Health Crisis. She said she would provide the Health Board with an update on the progress the Health District has made in implementing several of the deliverables identified in the approved resolution.

Today's presentation focused on the following Equity Program activities:

- Our definition of “equity”: Equity is the guarantee of fair treatment, advancement, opportunity, and access for all individuals. To achieve equity, we strive to identify and eliminate barriers that have prevented the full participation of some groups and ensure that all community members have access to community conditions and opportunity to reach their full potential and to experience optimal well-being and quality of life.
- The Equity Program guides and supports agencywide and program initiatives to advance health equity and the use of a public health approach to advancing racial equity.
- The Equity Program collaborates with the Human Resources Program and Health District employees to build an inclusive and antiracist workplace culture that is continuously improving and that provides services that are accessible, culturally appropriate, and equitable.
- Current Equity Program priorities are organizational assessment, employee training, internal policy review, and community partnerships.
- The Equity Program uses a layered employee training approach by training directors, managers, and then employees and uses the social ecological model. The first employee training will occur in June through September 2022.
- The Equity Program strives to center the voices of our communities experiencing health inequities in our equity work.
- Equity outreach activities include:
 - 8 presentations at community meetings and public events since September 2021
 - Public events:
 - Kitsap Human Rights Conference
 - Bremerton “Getting to Racial Equity” conversation
 - UFSI Race and Equity Summit
 - Participation in several community groups including:
 - Kingston Citizens Advisory Committee
 - Bainbridge Island Senior Group
 - NAACP Unit 1134
 - League of Women Voters of Kitsap County
 - Kitsap County Human Rights Council
 - Kitsap Equity Race and Community Engagement (ERACE) Coalition
 - Participation in Kitsap Community Resources (KCR) Community Partnerships Committee, NAACP Vital Information Group, and other groups
 - One-on-ones with community leaders and organizations
 - Participation in events, e.g.,
 - NAACP Juneteenth Resource Fair
 - Juneteenth Freedom Festival

There was no further comment.

ADJOURN

There was no further business; the meeting adjourned at 1:46 p.m.

MEMO

To: Kitsap Public Health Board
From: John Kiess, Environmental Health Director
Date: July 5, 2022
Re: Food and Living Environment Program Overview and Updating Ordinance 2014-01 *Food Service Regulations*

At the July 5th regular meeting, Dayna Katula, Food and Living Environment Program Manager, will provide a brief program overview. We would also like to make the Board aware of our work to update our local food ordinance. The Health Board has a current [Ordinance 2014-01 Food Service Regulations](#), adopted December 2, 2014. The existing ordinance contains some outdated language and is in need of an update for several local requirements. Primarily, this ordinance adopts [Chapter 246-215 WAC Food Service](#) as amended, however, the ordinance also provides some local food service permitting requirements and provides an enforcement framework for program staff. Examples of substantive changes to update the existing 2014 ordinance include:

- Removing duplicative language between the ordinance and WAC 246-215;
- Adding some local definitions of terms like “seasonal food establishment”;
- Adding a requirement for Health District review if an operator converts food service equipment in their establishment;
- The addition of an appeals section to the ordinance.

The Health District plans to present the Board with an updated ordinance later this fall after a public comment period. The new ordinance will have received full legal review from the Kitsap County Prosecuting Attorney’s office.

Recommended Action

None at this time, informational only.

Please feel free to contact me at any time regarding this ordinance update. I can be reached at (360) 728-2290, or john.kiess@kitsappublichealth.org with any questions or comments.

MEMO

To: Kitsap Public Health Board
From: Yaneisy Griego, LPN; Karina Mazur, RN, BSN, Supervisor Nurse Family Partnership;
Nancy Acosta, RN, BSN, Manager Parent Child Health
Date: July 5, 2022
Re: Nurse-Family Partnership Presentation

Kitsap Public Health District houses our local Nurse-Family Partnership program via the Parent Child Health Program. Nurse-Family Partnership pairs low-income, first-time mothers with a Public Health Nurse. Public Health Nurses support families by providing education, support, and resources to help them be the best parents they can be. Our team uses an evidence-based approach to give families the tools to find self-efficacy, bond with their babies and break cycles of abuse and neglect.

Today's presentation will provide information about the Nurse-Family Partnership model:

- The science behind the program
- Washington data
- Kitsap data
- Client impact

Kitsap Public Health District began implementing NFP in July 2012 as part of a regional team with Jefferson County Public Health.

kitsappublichealth.org

OVERVIEW

GENERAL INFORMATION

Nurse-Family Partnership® is an evidence-based, community health program with 45 years of research showing significant improvements in the health and lives of first-time moms and their children affected by social and economic inequality.

“ ”

CHILDREN’S PROGRAMS ARE SUCCESSFUL WHEN THEY LEVERAGE THE MOST DIFFICULT JOB IN THE WORLD: PARENTING.

**NICHOLAS KRISTOF
PULITZER PRIZE-WINNING JOURNALIST**

Better Worlds Start with Great Families

Nurse-Family Partnership succeeds by having specially educated nurses regularly visit first-time moms, starting early in the pregnancy and continuing until the child’s second birthday. Research consistently proves that the partnership between a nurse and the mom is a winning combination that makes a measurable, long-term difference for the whole family.

Moms enrolled in Nurse-Family Partnership benefit by getting the care and support they need in order to have a healthy pregnancy. At the same time, families develop a close relationship with the nurse who becomes a trusted resource they can rely on for advice on everything from safely caring for their child to taking steps to provide a stable, secure future for their new family.

Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by partnering with moms to engage in good preventive health practices, including thorough prenatal care from their healthcare providers, improving their diets and reducing any use of habit-forming substances;
2. Improve child health and development by assisting families provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by supporting parents to develop a vision for their own future, plan additional pregnancies, continue their education and find work.

Proven Results

The Nurse-Family Partnership program has been independently reviewed and evaluated, and is ranked as the Gold Standard of home visiting programs.

↓ **48%** LESS LIKELY TO SUFFER CHILD ABUSE AND NEGLECT¹

↓ **56%** REDUCTION IN ER VISITS FOR ACCIDENTS AND POISONINGS⁶

↓ **67%** LESS LIKELY TO EXPERIENCE BEHAVIORAL AND INTELLECTUAL PROBLEMS AT AGE 6²

↓ **72%** FEWER CONVICTIONS OF MOTHERS (MEASURED WHEN CHILD IS 15)¹

↓ **35%** FEWER HYPERTENSIVE DISORDERS OF PREGNANCY⁴

↑ **82%** INCREASE IN MONTHS EMPLOYED³

“ ”

THERE IS A MAGIC WINDOW DURING PREGNANCY... A TIME WHEN THE DESIRE TO BE A GOOD MOTHER AND RAISE A HEALTHY, HAPPY CHILD CREATES MOTIVATION TO OVERCOME INCREDIBLE OBSTACLES INCLUDING POVERTY WITH THE HELP OF A WELL-EDUCATED NURSE.

DAVID OLDS, PHD
FOUNDER OF NURSE-FAMILY PARTNERSHIP
AND PROFESSOR OF PEDIATRICS AT THE
UNIVERSITY OF COLORADO

Early Intervention

A report from the Center on the Developing Child at Harvard University shows the extent to which very early childhood experiences influence later learning, behavior and health. The Harvard report shows basic brain functions related to vision, hearing and language development during the first 30 months of a child's life. It is during this timeframe that the early and intensive support by a Nurse-Family Partnership nurse can have a huge impact on the future of the mom, child and family.

Human Brain Development

Synapse formation dependent on early experiences

WASHINGTON

Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

5x \$ RETURN

EVERY \$1 INVESTED IN NFP SAVES \$5.00 IN FUTURE COSTS FOR THE HIGHEST-RISK FAMILIES SERVED¹

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child's second birthday. Mothers, babies, families and communities all benefit.

WASHINGTON MOMS

- 33% Hispanic
- 61% Non-Hispanic
- 5% Declined

OUTCOMES FOR WASHINGTON

*Aggregate data provided by the NSO. Includes state data from 01/01/2019 to 12/31/2021

*Babies born at term are those who reached 37 weeks gestation

89% BABIES BORN AT TERM

95% MOTHERS INITIATED BREASTFEEDING

89% BABIES RECEIVED ALL IMMUNIZATIONS BY 24 MONTHS

47% OF CLIENTS 18+ WERE EMPLOYED AT 24 MONTHS

Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

WE KNOW how to positively transform the lives of vulnerable babies and mothers—family by family. Day in and day out.

Changing **FAMILIES**...
Changes **COMMUNITIES**...
Changes **ZIP CODES**...
Changes **STATES**...

CHANGES THE COUNTRY!

If **ONE** family can break the cycle,
then so can
100,000 FAMILIES!

KEY GOALS

- Improve Pregnancy Outcomes
- Improve Child Health and Development
- Improve Economic Self-Sufficiency of the Family

HOW IT HAPPENS

EXPERTS:

Specially-trained nurses

PROVEN:

Extensive and compelling evidence

INTENSIVE:

Pregnancy through age 2

TIMELY:

First 1000 days

THE FIRST 1,000 DAYS

- Early experiences influence the developing brain
- Toxic affects of chronic stress
- Adversity can lead to lifelong problems
- Early intervention can prevent consequences
- Stable, caring relationships essential for development

TRIAL OUTCOMES

The following outcomes have been observed among participants in at least one of the trials of the program:

48% reduction in child abuse and neglect

56% reduction in ER visits for accidents and poisonings

50% reduction in language delays of child age 21 months

67% less behavioral/intellectual problems at age 6

79% reduction in preterm delivery for women who smoke

32% fewer subsequent pregnancies

82% increase in months employed

OUTCOMES FOR WASHINGTON

*Aggregate data provided by the NSO. Includes state data from 01/01/2019 to 12/31/2021

*Babies born at term are those who reached 37 weeks gestation

89% BABIES BORN AT TERM

95% MOTHERS INITIATED BREASTFEEDING

89% BABIES RECEIVED ALL IMMUNIZATIONS
BY 24 MONTHS

47% OF CLIENTS 18+ WERE EMPLOYED
AT 24 MONTHS
