APPLICATION AND DESIGNER INFORMATION		
Designer of Record	Contact Phone	Associated Application Memo Number

- ✓ 3 Monitoring wells should be located to give best overview of water table. Locate 2 representative monitoring wells within the primary and 1 within the reserve drainfield areas.
- ✓ Information must show total depth of well.
- ✓ Water table must be determined from the surface for the ground to water table in inches.
- ✓ Best to measure 1-3 days following a normal rain event.
- ✓ Please provide a drawing to show location and labelling of monitoring wells here or attach.
