

KITSAP COUNTY BOARD OF HEALTH ORDINANCE 2018-01
DRINKING WATER SUPPLY REGULATIONS

Policy #2: Water Status Report Applicability

Effective Date: March 4, 2019

Purpose: The purpose of this policy is to clarify the Water Status Report requirements for undeveloped properties or properties with a new structure.

Policy: The following policy shall guide Health District staff and applicants on determining when a water status report will be required in accordance with Section 9 of the Regulations.

1. A Water Status Report application will **not** be required at the time of property conveyance in the following situations:
 - a. Undeveloped property with a well located upon the property parcel; or
 - b. Undeveloped property that is designated as a future service connection for a 2-party private water supply located on another property parcel; or
 - c. Undeveloped property that is designated as a future service connection in the approved design for a Group B public water system; or
 - d. Developed properties with structures or buildings which have **never been occupied**.
