

Toolkit: Food Employee Illness Log

Food workers must report to the person in charge if they have foodborne illness symptoms, diagnosis, or exposure. A written log is a recommended tool for most food establishments but is required for food establishments with an approved plan for bare hand contact with ready-to-eat foods [WAC 246-215-03300(5)(c)(i)]. If required, the log must be maintained for at least 90 days.

- **Employees must notify the person in charge (PIC) of any foodborne illness symptoms, illness, or exposure.**
 - **Symptoms:** Diarrhea, vomiting, sore throat with fever, jaundice, or inflamed lesion
 - **Diagnosed Illness:** Salmonella, Shigella, Shiga toxin-producing *E. coli*, hepatitis A virus, norovirus
 - **Exposure:** Workers serving a highly susceptible population and exposed to a foodborne illness or outbreak.
- **Employees with a diagnosed illness or jaundice MAY NOT WORK until approved by the health department.**
 Workers serving a highly susceptible population must also be approved to return after exposure to foodborne illness.
- **Employees with diarrhea or vomiting MAY NOT WORK until at LEAST 24 HOURS after symptoms stop.**
 - Workers with sore throat with fever or an uncovered, inflamed lesion may not handle clean dishes or unwrapped food.
 - Workers serving a highly susceptible population may not work with a sore throat with fever and may not handle clean dishes or unwrapped food if exposed to an outbreak or a person with a diagnosed foodborne illness.
- **The PIC is required to notify the health department if an employee has:**

Salmonella • *Shigella* • Shiga toxin-producing *E. coli* • hepatitis A virus • norovirus • jaundice
- **The PIC is required to notify the health department if a customer reports potential illness.**

* Workers with active vomiting and diarrhea may not return to work for at least 24 hours after symptoms go away.

** Notify the health department if an employee has jaundice, a diagnosed foodborne illness, or if a customer reports illness.

*** Food workers exposed to foodborne illness that work in a facility serving highly susceptible populations (like senior centers and nursing homes) must be cleared by the health department before handling unpackaged food or clean utensils.
