

## About the County Health Rankings & Roadmaps and Kitsap Core Public Health Indicators Report

### About the County Health Rankings & Roadmaps

- <http://www.countyhealthrankings.org/>
- Developed by the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute
- First released in 2010 for all U.S. counties, updates released annually but not comparable over time due to changes in definitions and sources
- Counties ranked within each state by indicators and section to allow comparison
- Data sources are national and must have data for *almost all* counties across the U.S.
- **Rankings & Roadmaps Contents:**
  - 35 indicators in 2 sections and 6 sub-sections:
    - Health Outcomes
      - Length of life and Quality of life
    - Health Factors
      - Health Behaviors, Clinical Care, Social and Economic Factors, Physical Environment

### About the Kitsap Core Public Health Indicators

- [http://www.kitsapcountyhealth.com/information/data\\_indicators.php](http://www.kitsapcountyhealth.com/information/data_indicators.php)
- Developed by Kitsap Public Health District to present an overview of the health of Kitsap
- Data are presented as rates and trend over time using national, state, and local data sources

### Kitsap Core Public Health Indicator Contents:

- More than 90 indicators in five sections:
  - Demographic profile
  - Who are we?
  - How healthy are we?
  - How healthy are our lifestyles and behaviors?
  - How safe and healthy are our surroundings?

## KPHD Indicators and County Health Ranking Comparisons

- KPHD Indicators are:
  - Generated from local, state and national data sources using current data
  - Rates and percentages with statistical trend over time and comparison to WA State
- County Health Rankings are:
  - Generated from national-level data sources
  - Ranks based on comparison to other counties in the state; statistical trend over time for some measures; comparison to WA State and top 10% of U.S. counties

## County Health Rankings and Kitsap Core Public Health Indicators both:

- Raise awareness of community health
- Present a call to action
- Identify areas for more in-depth analysis

## 2019 County Health Rankings:

---
