Kitsap Community Health Priorities 2024 Prioritization Convening

January 11, 2024

Norm Dicks Government Center, Bremerton

WELCOME

LAND ACKNOWLEDGEMENT

We gather on lands where Coast Salish peoples have long resiliently resisted the ongoing harms of colonialism. Let us continually ask how we are respecting the Tribes' sovereignties, rights to self-determination, and sacred connections to this place. In solidarity, we work with intention toward truth-telling reconciliation. Please center yourself in this context ...and in the following words from the Port Gamble S'Klallam and Suquamish Tribes.

from the Preamble to the Point No Point Treaty Council Constitution

...the Port Gamble S'Klallam and the Jamestown S'Klallam Tribes, of the Point No Point Treaty Area, recognize the responsibility and need to protect and advance the treaty reserved hunting, fishing and gathering rights of [their] Tribes.

[The Port Gamble S'Klallam and the Jamestown S'Klallam Tribes] further recognize that [their] inherent traditional and cultural rights constitute vital and irreplaceable resources for [their] future. These resources are essential for the social, cultural and economic self-sufficiency and well-being of [their] Tribal communities.

[The Port Gamble S'Klallam and Jamestown S'Klallam Tribes] believe that in unity and mutual respect [they] can best accomplish [their] community goals, not only for the benefit of Indian people, but for all people.

ATTENDANCE

GOALS FOR TODAY

 Review process to identify top community health issues

Select 3 priorities to address in our 5-year
 Community Health Improvement Plan

Discuss next steps

identifying priorities

collaborative

planning

COMMUNITY ASSESSMENTS

- This KCHP process draws from the Kitsap Community Resources Community Needs Assessment (CNA) and the St Michael Medical Center Community Health Needs Assessment (CHNA)
- There are many other assessments and planning documents developed by community and governmental organizations in Kitsap County
- Review of those assessments and documents will be helpful in planning collaborative actions on the priorities we select together today

TODAY'S AGENDA

9:00 – 9:20	Welcome		
	Convening goals, process		
9:20 – 9:50	Naming our Top Issues		
9:50 – 10:40	Selecting our Priorities Voting — Round 1		
10:40 - 11:00	Break		
11:15 – 11:45	Voting — Round 2		
11:45 – 12:00	Priorities Review, Next Steps		

Community Health Improvement Plan (CHIP)

Overview

WHAT IS A CHIP?

Multi-year plan that:

- identifies community-wide priorities set by participants in a community health assessment process,
- identifies strategies to address those priority issues, and
- describes community partner roles in collaborating to address the priorities.

PAST CHIP PRIORITY PROJECTS

2011:

- 5-2-1-0 Kitsap
- Project Access Northwest
- ACEs Partnership
- Ready! for Kindergarten
- Breastfeeding Support

2014:

- Healthy Eating
 Active Living
 (HEAL) Coalition
- Kitsap Strong
- Kitsap Connect
- Explore respite care options

2019:

 COVID disruption to project development

CHIP <u>IS</u> COLLABORATION

YOUR ROLE IN CHIP

- Participate in
 - this process to identify CHIP priorities.
 - CHIP priority workgroup (s) and if appropriate, lead a workgroup.
 - the development of goals, objectives, strategies, and actions for your selected priority.
 - the implementation of actions from the CHIP.
- Attend yearly convenings to share and celebrate progress.

KPHD'S ROLE IN CHIP

- Facilitate the process for identifying CHIP priorities.
- Provide a suggested framework and process to launch each CHIP priority.
- Participate in the implementation of actions from the CHIP.
- Document and evaluate CHIP process.
- Facilitate yearly CHIP convenings.

Naming our Top Issues: Priority Development Process

PROCESS STEPS

Data summit & Open houses → key themes

INDICATORS & COMMUNITY VOICE

The Sept 26th Data Summit was a presentation of key findings from the quantitative indicators and qualitative community voice in our Community Health Assessment (CHA).

The CHA covers 9 topic areas and includes trends, disparities, areas of concern, and assets in our county.

The final CHA report was published Dec 29th

CHA KEY FINDINGS

- CHA Key findings are presented in fact sheet organized by topic area:
 - Demographics and Social Determinants of Health
 - Environmental Health
 - Access to Health Care
 - Pregnancy and Births
 - Mental Health & Wellbeing
 - Health Related Behaviors
 - Communicable Disease
 - Chronic Disease
 - Injuries, Hospitalizations and Deaths

Data summit & Open houses → key themes

DATA SUMMIT

At the Sept 26th Data Summit, participants heard about key findings from the CHA and were asked to provide written input based on this question:

From the data you have just seen and your experiences, what should be our community's top health priorities related to this section's topics?

All written responses were compiled into high level themes in real time.

DATA SUMMIT INPUT THEMES

Data Summit				
Section	Top Themes			
Social Determinants of Health	affordable and safe housing			
	meet basic needs			
	address and prevent homelessness			
Environmental Health	active living/transportation			
	climate change			
Health Care Access,	provider recruitment			
Pregnancy and Births	healthcare gaps - access			
	equity and representation			
	OB pre/postnatal care			
	healthcare costs and insurance			
	expand OB provider types			
Mental Health, Wellbeing and	expand care models			
Health Behaviors	school services			
	mental health care access			
	mental health prevention			
	youth support			
Communicable Disease,	healthy eating/food access			
Chronic Disease, Injury,	STI screens/preventive care			
Hospitalizations, Deaths	communicable diseases			
	education/information campaigns			

Data summit & Open houses → key themes

DATA OPEN HOUSES

In October/early November, we hosted six data open houses. Locations: Bremerton, Port Orchard, Poulsbo, Silverdale, NDGC Lobby, and virtual.

Open house participants reviewed the 9 topic area fact sheets and provided input on the topics through written comments on sticky notes (in-person sites) or in an electronic form (virtual). They were asked to:

Write any questions you have about the data and/or suggestions you have on what our community's health priorities should be.

All written responses were compiled into high level themes.

OPEN HOUSE INPUT THEMES

Open Houses				
Section	Top Themes			
Social Determinants of Health	affordable and safe housing			
	meet basic needs			
	economics/income			
Environmental Health	active living/transportation			
	climate change			
Health Care Access,	provider recruitment			
Pregnancy and Births	healthcare gaps - access			
	healthcare gaps			
	healthcare costs and insurance			
	new models			
	expand OB provider types			
	OB pre/postnatal care			
Mental Health, Wellbeing and	mental health care access			
Health Behaviors	substance use disorder care access			
Communicable Disease,	sexually transmitted infections screens/preventive care			
Chronic Disease, Injury,	healthy eating/food access			
Hospitalizations, Deaths	education/information campaigns			
	chronic disease prevention and screening			
	communicable diseases			

CROSSWALK Building a list of potential priorities

CHA key findings, Data Summit input themes and Open House input themes were put into a table to identify areas of overlap. Those areas were summarized into potential priority statements.

INDICATOR DATA QUANTITIATIVE	DISPARITY	SURVEY, CONVERSATIONS, INTERVIEWS COMMUNITY VOICE	THEMES FROM DATA SUMMIT & OPEN HOU DATA SUMMIT	SES DATA OPEN HOUSES	POTENTIAL PRIORITIES
There have been decreases in Kitsap's population living in poverty from 2013 to 2021. In 2021, about one in five (19%) Kitsap residents (about 52,000 people) were estimated to live below 200% of the Federal Poverty Level (FPL) (below \$53,000 annual income for a family or household of four).	Disparities are seen in economic stability (income) by geography and race and ethnicity.	Community members reported cost as a barrier to meeting basic needs. In the 2022 Kitsap Community Resources (KCR) survey, cost was reported as the primary barrier preventing survey participants from meeting basic needs for housing, food, reliable transportation, and childcare.	meet basic needs	meet basic needs	Improve strategies and systems to ensure basic needs are met
	Among Bremerton community members nearly one in three (32%) lived below 200% of the Federal Poverty Level (FPL) in 2021 (about \$53,000 annual income for a family or household of four). This was the highest percentage of any Kitsap County region.			economics/income	Improve opportunities for education
	The estimated median household income by race/ethnicity in 2021 ranged from \$58,854 for American Indian or Alaska Native community members to \$90,191 for White community members. Disparities were seen in educational attainment by geography and				
	housing status. Across Kitsap County, the percentage of public school students graduating within four years ranged from 64% in Bremerton to 94% in Bainbridge Island during the 2020-2021 school year.				

17 POTENTIAL PRIORITIES

- 1. Improve strategies and systems to ensure **basic needs** are met.
- 2. Improve opportunities for education.
- 3. Ensure affordable and safe housing.
- 4. Address and prevent homelessness.
- 5. Expand strategies to increase and improve options for healthy eating.
- 6. Expand strategies for community design to increase and improve options for **active living and transportation**.
- 7. Prepare for and minimize the impacts of **climate change**.
- 8. Address gaps in **healthcare access**.
- 9. Implement strategies to recruit and retain healthcare workforce.
- 10. Train healthcare workforce to provide culturally relevant and inclusive services.
- 11. Expand number of OB providers and options for **prenatal**, **perinatal**, **and postnatal care**.
- 12. Expand care options for mental health and substance use disorders.
- 13. Address and prevent suicide and depression, especially for populations disproportionately impacted.
- 14. Expand care options and prevention strategies for **communicable diseases**, **especially sexually transmitted infections**.
- 15. Increase awareness of **chronic disease prevention** strategies especially for populations disproportionately impacted.
- **16.** Increase awareness of **injury prevention** strategies especially for populations disproportionately impacted.
- 17. Increase awareness of **accidental poisoning (drug overdose)** strategies especially for populations disproportionately impacted.

DETERMINANTS OF HEALTH

Many things influence our health:

Source: Kaiser Family Foundation

- Social factors are things that we don't usually think are related to health but actually influence our health in significant ways.
- Opportunities to improve health include focusing on social determinants of health.

PRIORITIZATION

- Today we are not worried about the specific language of the priority, at the next meeting Feb 8th, priority groups can make final edits to the wording.
- Today's process to narrow the list of 17 potential priorities to a final 3 priorities:
 - We will have 2 rounds of voting

FRAMING OUR VOTING PROCESS

- In this process, topics not selected are not less important.
- We will collectively identify 3 health priorities that we will work on together over the next 5 years.
- Our shared goal is improving the health of our community. We will accomplish this for our identified health priorities by bolstering current strategies, implementing new strategies and exploring how each of our organizations can contribute and collaborate to make a difference.
- As you vote, consider where you or your organization can contribute – meaningful impact requires contributions from many

Voting – Round 1

ROUND 1 GOALS

Participants will:

• Vote on the top priorities from the 17 listed. The top *approximately* 6-8 will move forward to Round 2.

INSTRUCTIONS

- Discuss the priorities based on the criteria provided and questions posed by Table Guides.
 - Urgency action in the next 5 years for the health of our community
 - Impact activities we can do collectively that will make a positive difference to address the issue
 - Feasibility local momentum and can realistically do something to address this within the next 5 years
 - Contribution My organization has the capability (skills/knowledge) and capacity (resources/time) to participate
- On your selection worksheet, identify 6
 priorities and write your priority numbers on a
 notecard.
- Give your **notecard** to your Table Guide to tally.

17 POTENTIAL PRIORITIES

- 1. Improve strategies and systems to ensure **basic needs** are met.
- 2. Improve opportunities for education.
- 3. Ensure affordable and safe housing.
- 4. Address and prevent homelessness.
- 5. Expand strategies to increase and improve options for **healthy eating**.
- Expand strategies for community design to increase and improve options for active living and transportation.
- 7. Prepare for and minimize the impacts of **climate change**.
- 8. Address gaps in healthcare access.
- 9. Implement strategies to recruit and retain healthcare workforce.
- 10. Train healthcare workforce to provide **culturally relevant and inclusive services**.
- 11. Expand number of OB providers and options for **prenatal**, **perinatal**, **and postnatal care**.
- 12. Expand care options for mental health and substance use disorders.
- 13. Address and prevent suicide and depression, especially for populations disproportionately impacted.
- 14. Expand care options and prevention strategies for **communicable diseases**, **especially sexually transmitted infections**.
- 15. Increase awareness of **chronic disease prevention** strategies especially for populations disproportionately impacted.
- **16.** Increase awareness of **injury prevention** strategies especially for populations disproportionately impacted.
- 17. Increase awareness of **accidental poisoning (drug overdose)** strategies especially for populations disproportionately impacted.

populations disproportionately impacted.	0
17. Increase awareness of accidental poisoning (drug overdose)	
strategies especially for populations disproportionately impacted.	0
TOTAL PARTICIPANTS AT TABLE	0

Voting – Round 2

INSTRUCTIONS

- Discuss the priorities identified from Round 1 (use questions posed by Table Guides).
- Use notecards to share your top 3 priorities with your Table Guide.

ROUND 2 GOALS

Participants will:

- Vote on the short list of priorities resulting from Round 1.
- Identify 3 priorities that can be addressed in our Community Health Improvement Plan.

POTENTIAL PRIORITIES ROUND 2

ROUND 2 VOTING CRITERIA

Which of the top priorities:

- Are most **urgent**?
- Will have the **greatest impact** on the health of our community?
- Will most benefit individuals who already experience barriers to health?
- Already have community interest and resources to address?
- Are already a **priority to your organization**?
- Does your organization have interest, funding, and resources to address?
